FEATURE GUIDE

Dashboard v1.3

Complete Platform Directory

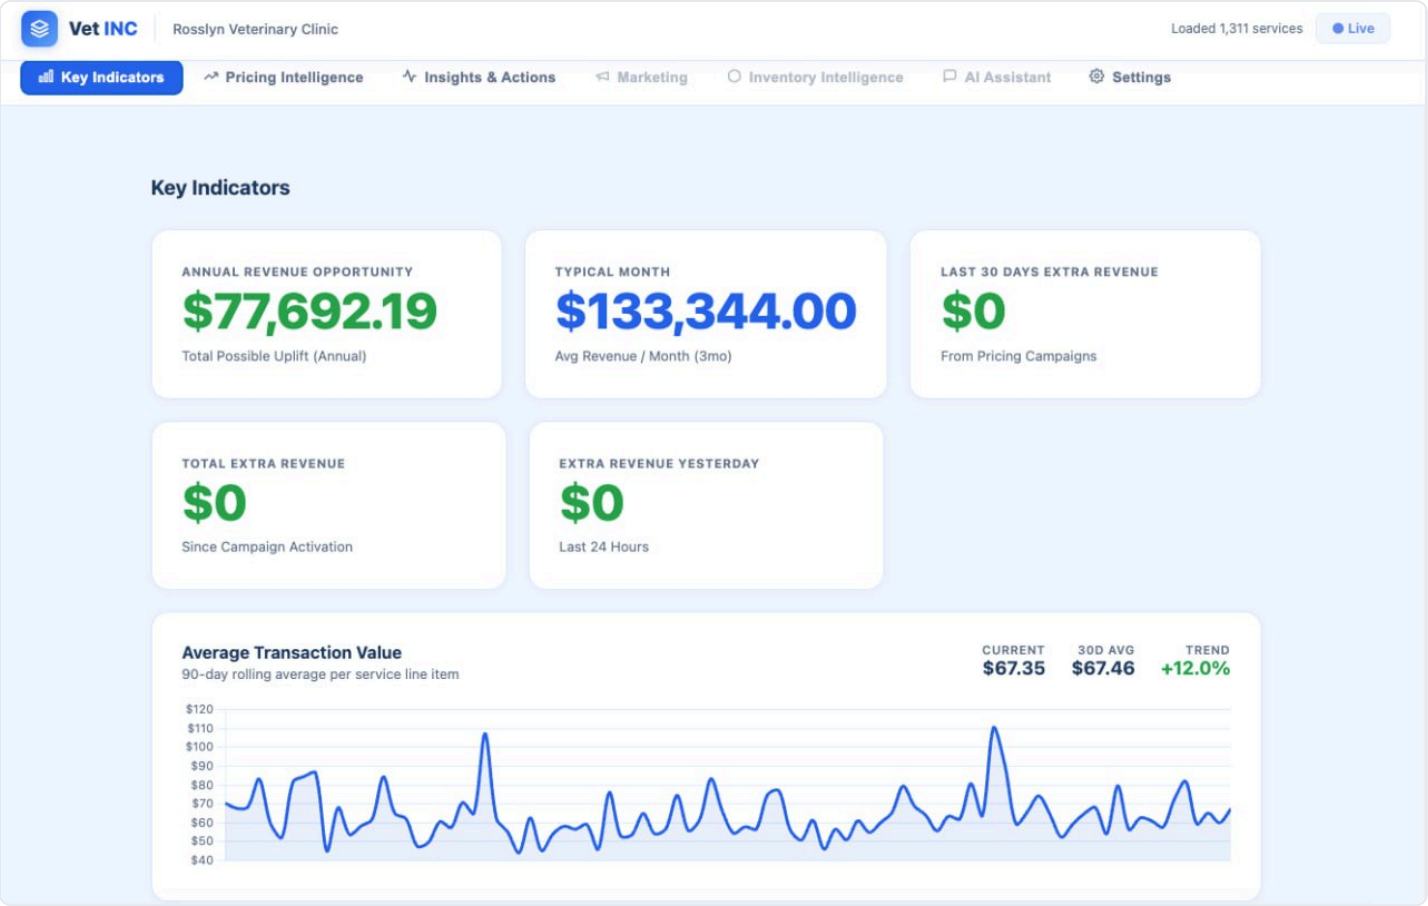
A visual walkthrough of every feature in the Vet INC Business Dashboard. From real-time revenue tracking to AI-powered pricing recommendations.

April 2026 Vet INC

Key Indicators

Your financial command center — a real-time snapshot of clinic performance and revenue opportunity.

KEY INDICATORS DASHBOARD



A **Annual Revenue Opportunity**
Total possible uplift if all recommended pricing changes are implemented. Updated in real time.

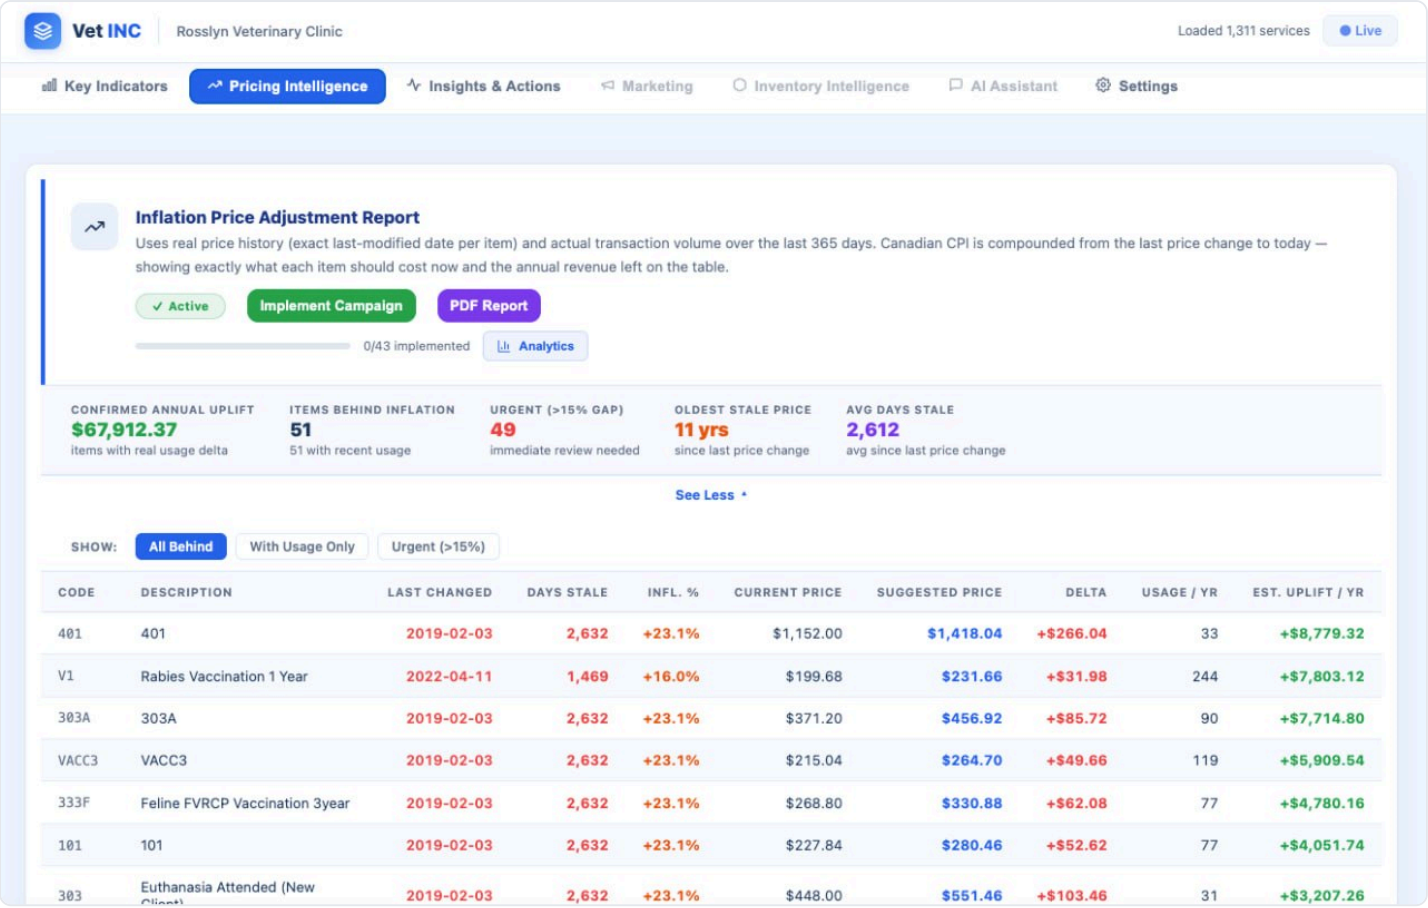
B **Typical Month Revenue**
3-month rolling average of monthly revenue. Your baseline for tracking improvement.

C **Extra Revenue Tracking**
Three cards track revenue from pricing campaigns: last 30 days, total since activation, and yesterday's uplift.

Pricing Intelligence — Analytics

The core engine of the Price Uplift Campaign. Analyzes every service and product, identifies pricing gaps, and generates actionable recommendations with revenue projections.

ANALYTICS MODAL — CAMPAIGN ITEMS & PROGRESS



A **Campaign Metrics**
At a glance: Total Items (43), Implemented count, Captured Revenue, and Remaining Potential ($47,521).

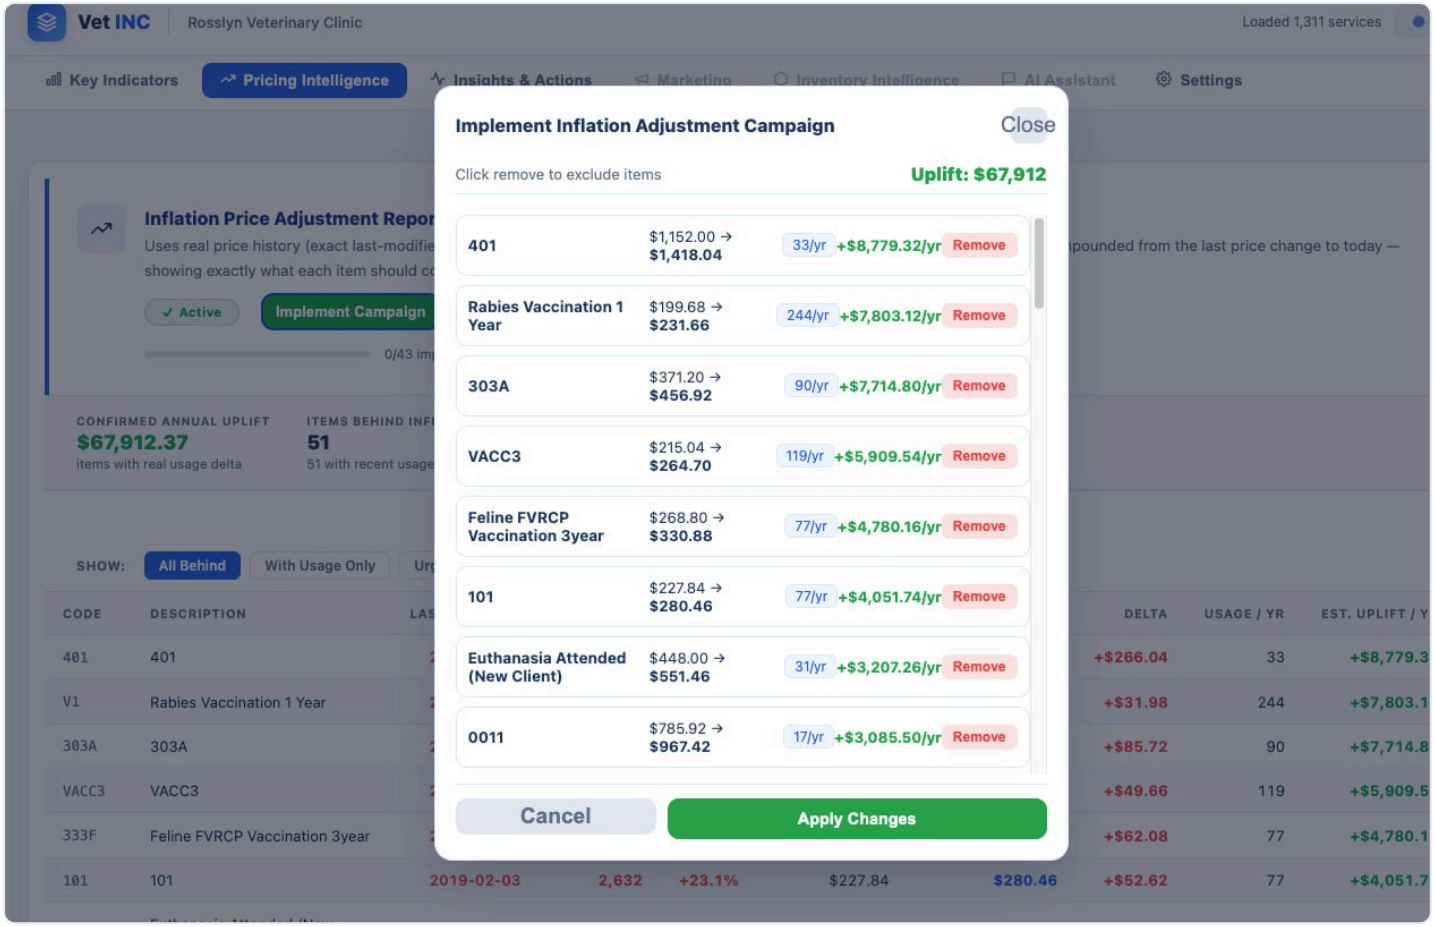
B **Implementation Progress Bar**
Visual progress tracker. Green = implemented. Gray = pending. Leadership sees exactly where things stand.

C **Campaign Items Table**
Every item listed with: current price, suggested price, annual uplift, and status (Pending / Implemented). Sort and filter by category.

Pricing Intelligence — Implement Campaign

Review, approve, and apply pricing changes directly to your PMS. Full control — nothing is changed without leadership approval.

IMPLEMENT CAMPAIGN MODAL



A **Item Review**
Click "Remove" to exclude any item from the campaign. Only items you approve will be changed.

B **Uplift Summary**
Running total of the revenue uplift from all approved items in this campaign batch.

C **Apply Changes**
One click to push all approved price changes to your PMS. Changes are logged and auditable.

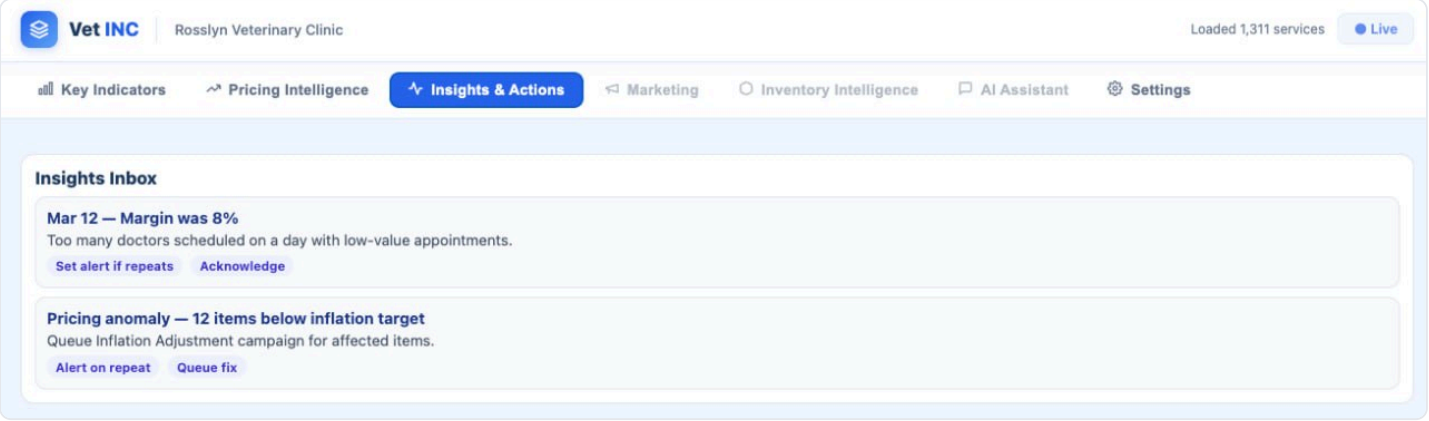
PDF Report

Generate a professional PDF summary of any campaign for leadership review. Includes all items, projected uplift, and implementation status. Perfect for owner/manager meetings.

Insights & Actions — Inbox

Automated alerts surfaced by the system. No hunting — the dashboard comes to you with actionable intelligence.

INSIGHTS INBOX — AUTOMATED ALERT CARDS



A **Margin Alerts**
"Mar 12 — Margin was 8%" — the system detects low-margin appointments and alerts you immediately.

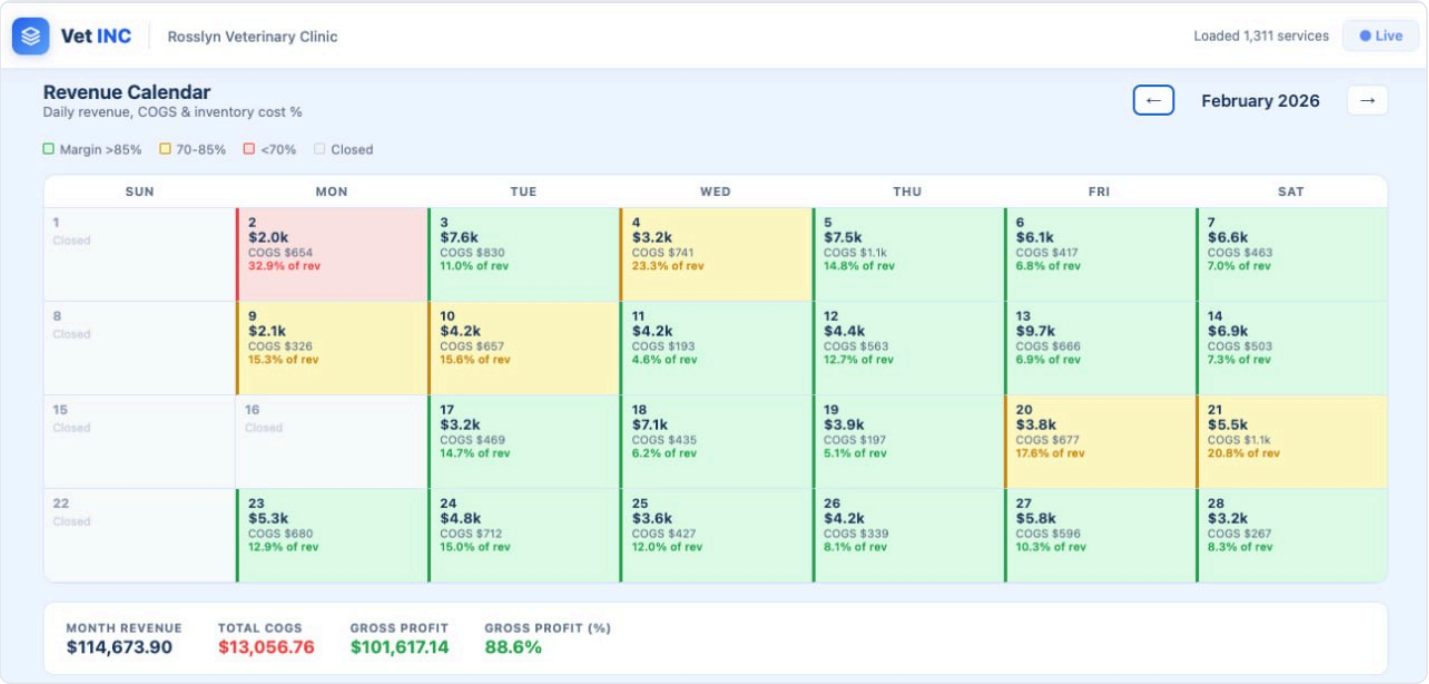
B **Pricing Anomaly Detection**
"12 items below inflation target" — automatically queues a pricing fix when items drift below your inflation target.

C **Action Buttons**
Each alert has actions: "Set alert if repeats" to monitor, "Acknowledge" to dismiss, or "Queue fix" to create a campaign.

Revenue Calendar

Color-coded daily view showing margin performance across the entire month. Instantly spot problem days and profitability patterns.

REVENUE CALENDAR — APRIL 2026



A **Daily Margin Heat Map**
Each day is color-coded: Green = margin above 85%, Yellow = 70-85%, Red = below 70%, Gray = closed.

B **Monthly Summary**
Month Revenue, Total COGS, Gross Profit, Fixed Cost per Day, and Average Margin — all at the bottom of the calendar.

C **Staff Performance**
Revenue per staff member, average invoice value, hours worked, and pay. Integrates with time-clock data.

Clinic Profile & Data Sync

Shows PMS data source, sync schedule (nightly 2AM), and total records synced. Auto-saves to cloud.
